### **D.C.A.P. District Curriculum Accommodation Plan**

Welcome to Foxborough Public Schools (FPS), a district that prides itself on a high standard of excellence in our PreK-12 public education program. Providing opportunities and access to programs to support the academic, personal and social growth of our students where each student is able to reach their individual potential is paramount to us. We are dedicated to engaging students in rich, intellectual, artistic, and character-building educational experiences, which empower them to become healthy, productive, and responsible citizens, leaders, and innovators.

## WHAT IS THE DCAP?

Foxborough Public Schools, in compliance with the Massachusetts General Law, have developed a District Curriculum Accommodation Plan (DCAP) as a guiding document for principals and teachers to ensure that all students in general education classes are provided with the tools and strategies to be successful. Based on the principals of Universal Design for Learning, the DCAP is designed to assist teachers in providing all students an equal opportunity to learn regardless of ability, disability, or cultural and linguistic background. The purpose of this tool is to support educators in their planning and instructional efforts to meet these varied needs and to ensure equitable access to the curriculum. To this end, the DCAP document outlines the accommodations, instructional supports, and interventions that are available for *all* students in order to capitalize on their strengths and unique learning styles.

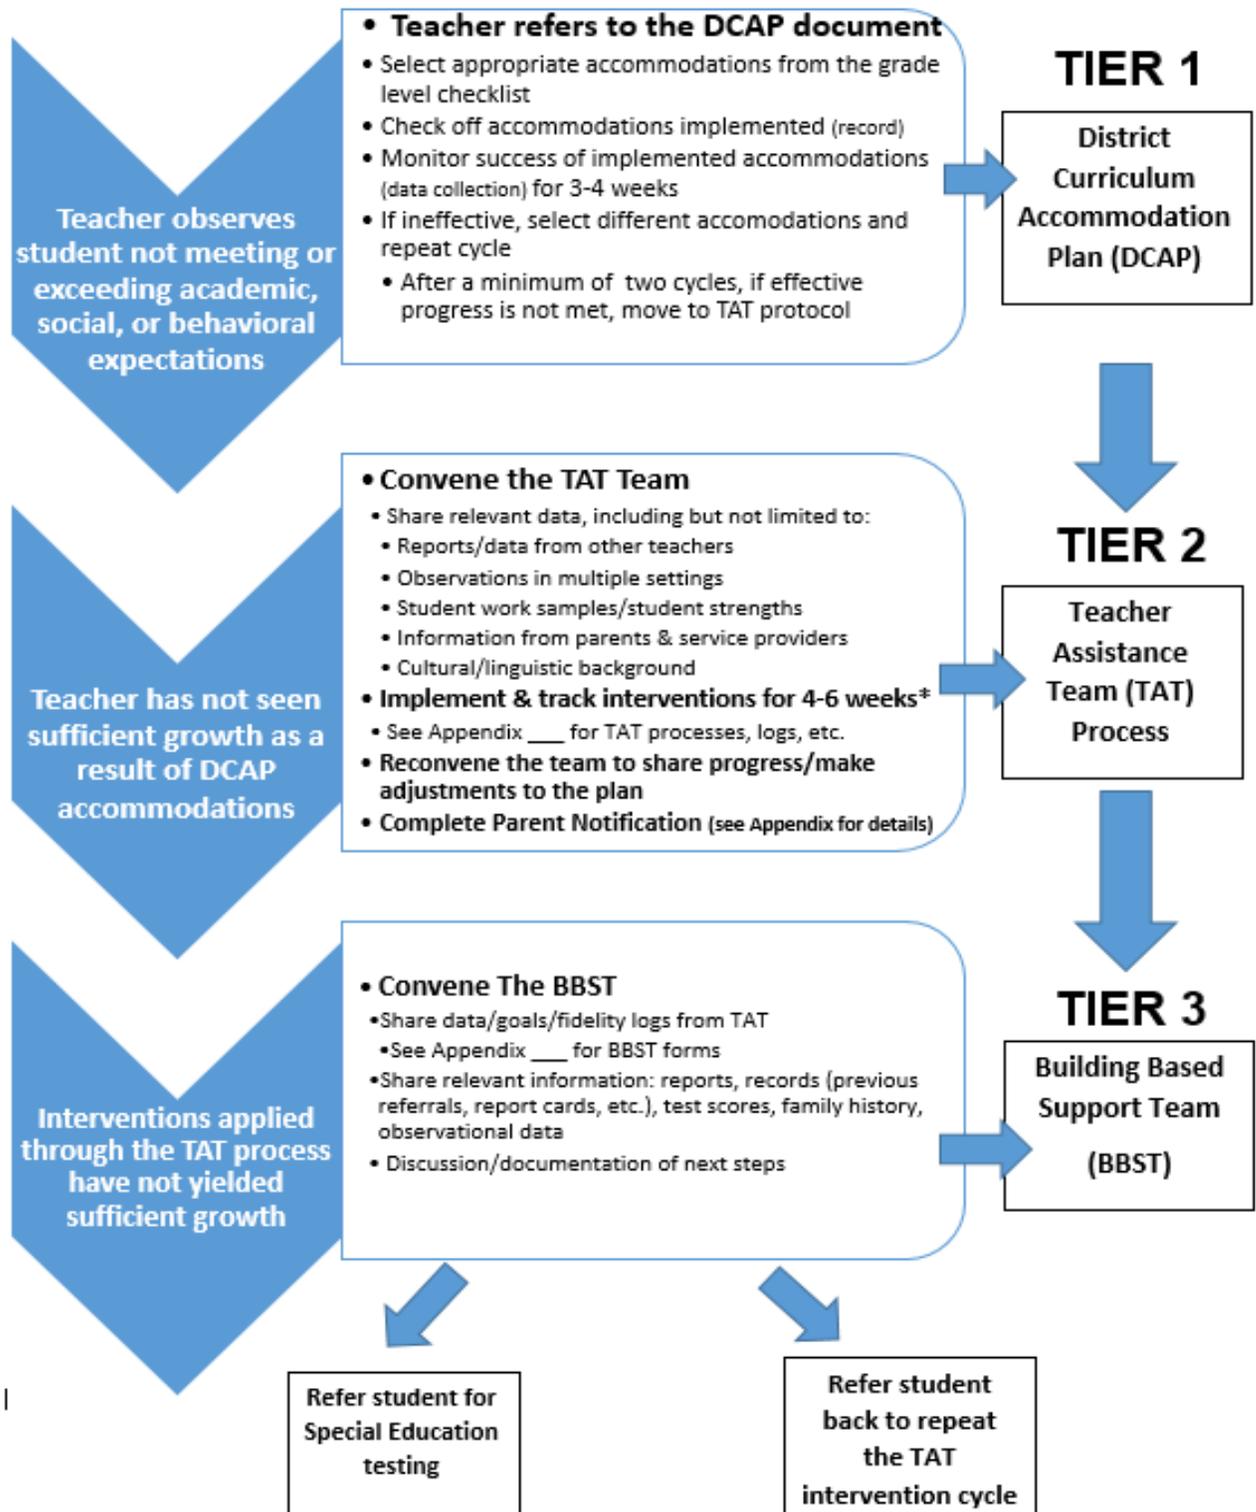

## CHAPTER 71 MASSACHUSETTS GENERAL LAWS: SECTION 38 ½ Q INDICATES:

“A school district shall adopt and implement a curriculum accommodation plan to assist principals in ensuring that all efforts have been made to meet students’ needs in regular education. The plan shall be designed to assist the regular classroom teacher in analyzing and accommodating diverse learning styles of all children in the regular classroom and in providing appropriate services and support within the regular education program including, but not limited to, direct and systematic instruction in reading and provision of services to address the needs of children whose behavior may interfere with learning, or who do not qualify for special education services under chapter 71B. The curriculum accommodation plan shall include provisions encouraging teacher mentoring and collaboration and parental involvement.”

## WHAT IS THE GOAL OF THE DCAP?

The goal of the DCAP is to assist teachers with content-based instruction, using instructional techniques that will assist with student understanding and allow equal access for all learners. As part of the Multi-Tiered System of Supports (MTSS), the goal of Foxborough Public Schools is to create a learning environment where students receive a variety of identified supports and accommodations in order to find optimal success. MTSS is a systemic, continuous improvement framework in which data-based problem-solving and decision making is practiced and discussed across all levels of the educational system for supporting students. This system promotes equity and access by employing interventions for *any* student who may benefit. These interventions may include, but are not limited to, adjustments in curriculum, teaching strategies, support services, teaching materials, and the use of various assessments where students have an opportunity to demonstrate learning through multiple modalities.

## DCAP Process – Overview of MTSS Process

\*The law requires that no instructional support program nor any other intervention limits the right of a parent to refer a student for a special education or Section 504 evaluation. If a referral for an evaluation is made during the delivery of tiered supports or other interventions, and the district has requested and received parental consent to evaluate, the evaluation information from any instructional support program should be made available to the IEP/Section 504 team to consider when determining eligibility.
